| Total   | \$995,288.79 |

## STATE OF NEVADA.

County of Washoe, ss  
 I, C. T. HENDERSON, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.  
 C. T. HENDERSON, Cashier.  
 Subscribed and sworn to before me this 28th day of December, 1894.  
 R. L. FISH, Notary Public.

## STOCKHOLDERS' ANNUAL MEETING.

THE ANNUAL MEETING OF THE STOCKHOLDERS OF THE RENO MILL & LUMBER COMPANY OF Reno, Nevada, will be held at the office corner Third and Ralston streets Saturday, March 9th, 1895.

At 2 o'clock P. M. for the election of Trustees to serve for the ensuing year, and for the transaction of such other business as may properly come before the meeting.

By order of the Board of Trustees,  
 WILLIAM HENRY, Secretary.  
 Reno, Nev., February 1, 1895.

## RANCH TO RENT.

SITUATED IN SOUTH RUBY VALLEY, Elko county, Nevada, at the base of the Ruby Mountains, CONTAINS 1,400 ACRES OF GOOD LAND, 300 acres of which is fine meadow, the balance fine grass and pasture land. One thousand acres under wire fence, AN ABUNDANCE OF WATER. It will be leased from three to five years. There is a good outside stock range, comfortable brick house, also a stone dwelling, barn, granary and barn, with other out-houses. School, postoffice, store and flour mill close by. Terms easy.  
 JOHN S. MAYHUGH, Elko, Nevada, feb21.

## DISSOLUTION OF PARTNERSHIP.

NOTICE IS HEREBY GIVEN THAT THE co-partnership between FRANK OAR and C. H. BURKE, in the business known as Oar & Burke, in the blacksmithing business in Reno, Nev., in this day dissolved. C. H. BURKE will continue the business at the old stand. All parties indebted to the firm will please call and settle as soon as possible.  
 FRANK OAR, C. H. BURKE, jan17

## Seth Taylor's Tonsorial Parlors.

Hair Cutting, Singeing and Shampooing a Specialty.

## HOT AND COLD BATHS

CENTS. 25 CENTS.

Clough & Crosby Building, Second St., Reno, Nevada. jan17

## DEER HORNS AS MEDICINE.

This Queer Remedy Is In Use In The Flowery Kingdom.

Deer horns are used by the Chinese for medicinal purposes, and consequently the value to a Chinaman of a pair of horns depends upon the quantity of the medicinal property contained in them. This property, which may almost be called the "virtue," is said to be greater in the young horns, and to get rarer as the horns grow older. The deer from which the horns are obtained are a true species of deer, the females having no horns, and this, as Darwin has pointed out in "The Descent of Man," is the case with all kinds of deer proper, the reindeer only excepted. In substance the horns are not unlike the horns of a cow or antelope, but are, when young, composed of a very delicate venous substance, covered with a velvety coating, and when old are osseous rather than cartilag.

For some months after they begin growing they are very tender, and the deer, not liking to touch them against branches of trees or bushes, a thing they are almost sure to do in the forest, will remain in the open, deserting cover, and so many times exposing themselves to greater dangers than the ones they flee from. After a time, as the horns grow older, the velvet covering begins to peel off, and while doing so causes an irritating, itching feeling, that makes the deer rub them against twigs, mossy bark or any other yielding substance not hard enough to hurt. This rubbing assists the velvet to peel off, and the horns then enter the second or intermediate stage. They are no longer tender, nor are they so hard as they eventually become, but are still going through a process of development.

Eventually their growth is perfected, they stand for a time, are shed, to be replaced by new ones, and become the property of the first forer or hunter who has the good fortune to find them. These shed horns, together with any horns taken from deer when they were approaching the time of shedding, have reached the third or final stage and are the least valuable.—Chinese Imperial Customs.

## Special Pins For Insect Collectors.

"Much care," said a taxidermist, "has to be taken in selecting the long, fine pins used in fastening the specimens in insect collections. For cheap collections of butterflies and bugs we use the ordinary brass pins mostly, but every one of these must be carefully examined before impaling the insect to see that it is well timed, for were the tin coating imperfect or the slightest flaw evident it would be in time causes the insect to oxidize in the body of the insect, and thus destroy it. We also use black varnished pins, but they are almost as bad, for the glazed coating soon cracks, leaving the metal exposed, and consequently it is not very long before oxidation sets. Even the more expensive kind, the nickel plated pins, are not much better. The latest thing we have now are solid silver pins and bronze pins, and there is being used as an experiment a nickel and aluminum alloy, which possesses decided advantages over all the others kinds used."—New York Sun.

## Where Cupid Blundered.

It is whispered that a thoroughly Parisian divorce, which has been for some time in question, is imminent. The parties are the granddaughter of a great poet, deceased, and a literary man, of a famous author. The young wife, it is stated, has returned with her baby to her mother. A curious thing is that, incompatibility of temper being the sole cause of the rupture, it is not yet known whether a divorce can be obtained.

## Pneumatic Tires.

Most people imagine that pneumatic tires are novelties of recent invention, and yet they were actually used on English roads nearly 50 years ago. We read that the Earl and Countess of England, agricultural show, held at Guilford, couple of carriage wheels were shown fitted with pneumatic tires. These were made by May & Jacobs for the Duke of Northumberland 47 years ago, but the carriage proving too heavy for the horse they were discarded. The tires were constructed on almost exactly the same principle as those in use on cycles today—an inner air chamber, with a stronger outer cover. When punctured, they were repaired by the same means as now adopted.—Hardware.

## Her Fortune.

Pearl Passow—Yes, dear papa is very generous. On my birthday anniversary he always gives me a dollar for each year I have lived.

Yule Younger—Indeed? That must have been the money Charley Gayboy meant when he said you had a fortune in your own right.—Buffalo Courier.

## A Long Distance Concert.

An extraordinary concert and ball took place last week in the Hungarian town of Teisvar. The audience listened by means of telephones distributed around the room to a military orchestra playing in the town of Arad, diets and songs in Szegedin, a chorus by a glee club at Szabadka and popular songs by celebrated artists in three theaters of Budapest. A quartet at Arad was distinctly heard as the "Rakoczy" march telephoned from Szegedin. Finally the young people present danced for hours to music alternately played in all three towns.

## VIGOR OF MEN

Easily, Quickly, Permanently Restored.

Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses, the results of overwork, sickness, worry, etc. Full, rich, devoted, and potent tonic given to every organ and portion of the body. Simple, natural methods. Immediate improvement seen. Failure impossible. 2,000 references. Book, explanation and proofs mailed (sealed) free.

ERIE MEDICAL CO., Buffalo, N. Y.

## 98%

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to make, but only with the means generally in use for its treatment; an easy, costly liver oil and its filthy emulsions, extract of malt, whiskey, different preparations of hypophosphites and such like palliatives.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misleading you, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery."

They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misleading you, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery."

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misleading you, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery."

ELECTION OF UNITED STATES SENATORS.

The condition of State affairs in Oregon is presented in advocacy of a change in the method of electing United States Senators. The Legislature of that State was composed of 72 Republicans, 9 Populists and 8 Democrats. One of the duties of the Legislature was to elect a successor to Senator Dolph. The Republicans held a caucus early in the session and a majority agreed to support Joseph N. Dolph. Mr. Dolph is imbued with gold-bug ideas of financial measures and several Republicans of free coinage proclivities refused to abide by the decision of the caucus. The Legislature met daily in joint convention to ballot for United States Senator. Mr. Dolph lacked a few votes of a majority and the corporations and gold men who backed him would not withdraw his name. The whole time of the Legislature was frittered away and in the last quarter of the last hour of the session his adherents changed their votes to McBride, who was elected to succeed Dolph. McBride, whose position on the financial question is unknown, was not the choice of the anti-Dolph men, but they preferred him to Dolph and, as there was no time for paralyzing, he was elected.

The Legislature of Oregon was in session the full time allowed by the Constitution. It passed very few bills affecting the interests of the State and several measures of importance to the people were defeated or left untouched on the calendar, as the greater part of the session was devoted to fruitless balloting for Senator. It was the duty of the Legislature to elect Railroads, Commissioners, Fish Commissioners, Game Warden, Food Commissioners, Pilot Commissioners and some other officials, but this duty was neglected in consequence of the Senatorial deadlock. The taxpayers are opposed to an extra session of the Legislature, as they do not feel able, in consequence of the business depression and the low prices of agricultural products, to bear the expense.

It view of these facts and also that there were three vacancies in the United States Senate for two years in consequence of deadlocks in Legislatures, a change in the method of electing U. S. Senators is urged. An amendment has been proposed to the Constitution of the United States to elect Senators by direct vote of the people. Much has been said for and against the proposed change, but the weight of argument seems to be in its favor. The people of Nevada voted for the change at the recent election, but as the question was submitted merely to ascertain the will of the people it had no effect. The Constitution requires that an amendment must receive a two-thirds majority in each of the two Houses of Congress and be ratified by the Legislatures of three-fourths of the States to make it effective. That relating to the election of United States Senators by popular vote has not yet passed Congress and the present method is likely to be continued for several years yet if a change is made at all. The old States are very conservative and it is doubtful if the amendment would be ratified by the required three-fourths of the Legislatures of the forty-four States of the Union, notwithstanding the deadlocks and scandals caused by the present method of electing United States Senators.

**THE WOMAN SUFFRAGE AMENDMENT.**

The proposed amendment to strike the obnoxious word "male" from the Constitution of Nevada has passed both Houses of the Legislature. If the Legislature of 1897 ratifies this amendment it will be submitted to the people for ratification in 1898 and if a majority favor it women will be entitled to vote in Nevada at the general election in 1900.

The proposed amendment was defeated in the Lower House of the Legislature two weeks ago. It subsequently passed the Senate and yesterday it passed the House, some of the members who voted against originally having since been enlightened and changed their minds.

The JOURNAL has never heard a satisfactory answer to the question Why an intelligent woman should be denied a privilege that is accorded the most ignorant man? Nevertheless it cannot see that such can be accomplished in the way of reform in elections by giving the ballot to ignorant women. The Legislature should supplement the proposed amendment by an Act providing that on and after the year 1900 no person, whether male or female, shall be permitted to vote at any election who cannot read and write intelligently. That would give all ample opportunity to qualify themselves for full citizenship, it would be unjust to none, and it would not extend the suffrage to persons who are not qualified to exercise it intelligently.

**GOVERNMENT RAILROADS.**

B. F. Leete suggests a simple, yet effective, method of operating railroads owned by the Government. He would have the Government keep the road in repair and regulate by train dispatchers the time of the arrival and departure of trains, and for this service charge a reasonable toll. Every merchant or forwarder should have the privilege of running cars or trains on the road subject to the payment of the toll and to the regulations prescribed by the train dispatcher. There would be open competition between the forwarders and expenses would be reduced to a minimum as there would not be a regiment of high-salaried officials to pay, no elections to control, and no legislative bodies or courts to bribe or corrupt.

A Disastrous Fire in Chicago Causes a Panic.

FRIGHTFUL MINE EXPLOSION.

Combatants in a Sword Contest Fight to Kill.

FREE COINAGE DEMOCRATS

**They Outline a Financial Policy.**

WASHINGTON, February 27.—The Silver men have drafted a declaration addressed to the Democrats of the United States, and outlining a financial policy for the Democratic party. In substance it states that the financial policy of the party is for free coinage of gold and silver on terms of equality at the ratio of 16 to 1; for the issue of all paper money by the Government without the intervention of banks, and opposition to any issue of interest-bearing bonds without the authority of a special Act of Congress. Attention is called to the movement said to be under way through the efforts of the opponents of free silver in the party to secure the election of gold men as delegates to the party conventions, and particularly to the next National Convention, for the nomination of a single standard gold man for the Presidency. The Democrats are charged to oppose the movement, and to see to it that none but free silver men are elected to positions of influence in the party and to represent them in all conventions. If the support of a majority of the party in Congress can be pledged to this financial platform it is intended to issue a manifesto to the Democrats of the United States within a few days.

**A SWORD CONTTEST.**

**The Men Fought as if They Meant to Kill.**

SPOKANE, Wash., February 27.—A fierce sword contest took place here last night between Charles A. Scappell and John D. Moore, rival leaders of two Italian factions of the city. The contest was for \$200 a side. The men are far from being friendly, and they fought as if they meant to kill. The former soon disarmed Moore and was awarded the contest. Moore took his defeat with bad grace, and by his taunts and those of his friends in the audience he succeeded in enraging Scappell to a point that they again crossed swords to fight to a finish. The two rival factions cheered their leaders and shouted to them to fight to kill, and they undoubtedly were trying to kill each other when the police, who were hastily summoned, appeared on the scene and stopped the fight.

**GOVERNMENT'S AMENDMENT**

**It Was Discussed and Finally Withdrawn.**

WASHINGTON, February 27.—The long pending contest over the financial amendment to the Sundry Civil bill came on in the Senate this morning. The amendment at the end of the bill, which provides for the issues of \$100,000,000 in certificates of indebtedness in small denominations, bearing three per cent interest to meet the deficiency in the Treasury came up. The debate was marked by disorderly conduct and the Vice President was obliged to call the Sergeant-at-Arms to preserve order.

At 8:33 Mr. Gorman rose in his seat and withdrew his \$100,000,000 certificate amendment to the Sundry Civil bill.

**EXPLOSION IN A MINE**

**Thirty Lives Supposed to be Lost.**

DENVER, February 27.—A special to the Times from Cerrillos, New Mexico, says: One of the most serious mine accidents ever known in the Territory occurred at White Ash, three miles from here, this afternoon, when an explosion in the Santa Fe Company's mine closed the entrance and set fire to the interior. Forty men are in the mine and it seems impossible that any can have escaped. A dense smoke is pouring from the openings and prevents the work of rescue. One dead body has been recovered, that of a driver, who was near the mouth of the tunnel when the explosion occurred.

**FIRE IN CHICAGO.**

**Children Panic Stricken and Unconscious.**

CHICAGO, February 27.—A fire started at 9 o'clock this morning in the Kaestner Knitting Works, the Pioneer Paper Company, the Bach & Hertz Feather Company. The building was totally destroyed, also five dwellings in the vicinity; damage \$250,000. The Crane Elevator works were badly damaged. Hundreds of employees in the Kaestner building, including 220 children, were panic-stricken, eleven were rescued unconscious, and some will probably die. Total loss \$600,000.

**A Million Dollar Fire.**

HALIFAX, February 27.—Property of the value of \$1,000,000 was destroyed by fire to-day in the vicinity of the deep water terminus. All the immigration sheds, offices and other buildings were burned. Several firemen were injured. Dartmouth sent a fire brigade to assist the city department.

Heavy Rain in Nebraska.

OMAHA, February 27.—Special dispatches from Southwestern Nebraska give news of a great rain there. Trenton, Hitchcock county, reports the heaviest rainfall in eighteen months. This is in the heart of the drought district and this rain has encouraged the settlers.

**AN INCOME TAX.**

**A Proposition to Levy it to Provide Revenue for the State.**

Senator Sumnerfield has introduced the following bill:

SECTION 1. For the fiscal year commencing on January 1, 1896, and annually thereafter, there shall be levied and collected for State and county purposes upon all private, associate and corporate incomes of the preceding year a tax as follows, to wit:

First.—Upon each income in excess of one thousand dollars, and less than fifteen hundred dollars, a tax of two dollars upon each one hundred dollars thereof.

Second.—Upon each income equaling fifteen hundred dollars and less than two thousand dollars, a tax of two dollars and fifty cents upon each one hundred dollars thereof.

Third.—Upon each income equaling two thousand dollars and less than three thousand dollars, a tax of three dollars upon each one hundred dollars thereof.

Fourth.—Upon each income equaling three thousand dollars and less than four thousand dollars, a tax of four dollars on each one hundred dollars thereof.

Fifth.—Upon each income equaling or exceeding four thousand dollars, a tax of five dollars on each one hundred dollars thereof.

Sec. 2. The private, associate and corporate incomes, subject to the operations of this act shall be as follows: Salaries, official or otherwise; net profits from business enterprises; net dividends derived from the ownership of stock in corporations; net income from rents; interest upon promissory notes, bonds and mortgages; trust deeds; or other evidences of indebtedness; net receipts from the practice of any profession or the engagement in any trade or occupation; fees received for official services rendered; commissions; profits realized from the sale of real estate or other property purchased within two years previous to the date of sale; provided, that gains, profits, or dividends received from the stock of corporations or from associate or partnership enterprises, which, under the operations of this act, have paid, or are liable for a corporate, or associate tax upon their incomes, shall not be computed as being a part of the income of any other person, association or corporation.

Sec. 3. In computing the incomes subject to a tax under the provisions of this act, the following deductions may be made from the gross receipts of the income taxpayer, to wit: Expenses actually incurred in practicing any profession, pursuing any trade or occupation, or conducting any business, all taxes paid; all interest paid upon existing indebtedness; all losses actually sustained in trade; all losses arising from fires, accidents, or storms, not compensated for by insurance or otherwise.

Sec. 4. The County Assessors shall demand from each person, association, company or corporation whose principal works or place of business is within their counties, a statement under oath or affirmation, of the gross amount and character of their incomes, of each separate reduction therefrom allowed by the provisions of this act, and of the income subject to the tax hereinafter specified. Such demand shall be made at the same time and in the same manner as Assessors are now required by law to demand statements under oath of real estate and personal property subject to taxation in their counties, and any person or agent, who shall neglect and fail, or refuse to make such statement as herein provided, shall be liable to the penalties now provided by law for the neglect or refusal to furnish statements of real estate or personal property subject to taxation upon the demand of the Assessor or his deputy.

Sec. 5. For the purpose of carrying out the provisions of this act and accomplishing its objects, County Assessors and District Attorneys are hereby clothed with all the powers, and authority conferred upon them by the laws of Nevada in order to enforce the collection of any and all kinds of taxes or license moneys.

Sec. 6. Nothing herein contained shall be held to apply to corporations, associations, or companies organized and conducted solely for charitable, religious or educational purposes, nor to building and loan associations, nor to associations or companies which make loans only to their shareholders.

Sec. 7. Forty per centum of the taxes collected under and by virtue of this act shall be paid into the State general fund and the remainder of such taxes shall be paid into the county general fund of the county wherein collected.

**Special Notice.**

Having secured the services of a skilled mechanic, I beg to call special attention to my watch repairing and diamond setting department. First-class work, reasonable charges and no delay.

H. FREDRICK, Jeweler.

Feb 28th.

Viavi.

Our sales are increasing every week. I cordially invite every lady in Reno to call and talk with me regarding this great cure.

MRS. B. E. HUNTER.

Viavi Co.

GENTLE WOMAN

With a toilet cream, to protect the complexion.

**Brilliant Transparency** of the skin, which is the true beauty of the complexion. She wishes it to have the true fragrance of the flowers and the gentle tonic action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

She wishes the refreshing, soothing effect of the best and simplest ingredients blended into a perfect cream. She finds it in Cocoon Cream and will have no other.

She never uses the paints and face bleaches which are so injurious to the skin.

**GENTLEMEN** after shaving find Cocoon Cream most excellent.

**COCOON WATER** is the natural fragrance of flowers for the toilet and bath.

**COCOON BALM** prevents and heals chapping, breaking and roughness of the skin.

**THE COCOON TOILET SPECIALTIES** are manufactured only by the

**Cocoon Company,**

SAN FRANCISCO, CAL.,

and we have secured the agency of same, as it is our constant effort to supply the public with the finest and latest Toilet Articles and the purest of Drugs and Medicines.

**FOR SALE BY WM. PINNIGER.**

**THE RAILROAD FUNDING BILL**

The Committee on Rules of the House of Representatives has refused to give a day to the further consideration of the Railroad Funding bill. It was ascertained that there was strong opposition in the House to the new bill and that it could not pass the Senate even if it should pass the House.

Eastern papers say there is no necessity for hasty legislation in this matter. The Act of March 3, 1887, authorizes the Secretary of the Treasury to draw on available funds to meet the first mortgage bonds as they mature and thus protect the public interest in the railroads. The New York Herald says the "deal" proposed by the cunning agents of the Union Pacific in the hope of rushing it through at the end of the session should be promptly repudiated. The Government should pay off the first lien and take the roads and operate them in the public interest.

**JOHN BULL GIVES ADVICE.**

**He Tells Uncle Sam How to Avoid a Panic**

The Statist, a London paper which is considered good authority by Wall Street, in a recent issue says: "The high rate of interest asked for the United States loan is due to the belief that further loans will soon be needed, and if the President refuses to borrow, and Congress does not act properly, gold will go to a premium and disappear from circulation. This will be followed by a panic in Wall Street and the money market business will be paralyzed until the elections of next year are over. The true remedy for the currency crisis is a loan to call in and cancel the greenbacks."

John Bull does not charge anything for this advice and Uncle Sam is to be congratulated for getting his instruction so cheap. Under Mr. Bull's instruction the next bond issue will be for \$300,000,000. This will be sufficient to retire the treasury notes, commonly called greenbacks. We presume that as soon as the bonds are issued and the greenbacks destroyed, that Mr. Bull will make the discovery that the National Bank notes and the silver currency is a disturbing factor in our circulation medium and their retirement and the issuance of \$700,000,000 more bonds. This would prevent another panic in Wall Street and give us a "safe and sound currency."

Of course this enormous increase in the interest bearing national debt and the withdrawal of three-fourths of the money from circulation would work a great hardship on the producers, and would result in the complete financial destruction of debtors who reside in the United States. But this would be nothing in comparison to the great good that would result by strengthening our credit abroad and in preventing a panic in Wall Street.

By all means let us maintain our national honor unimpaired among the money kings of Europe. Let the bonds be issued, or Wall Street will be convulsed with a panic and the gold withdrawn from circulation.

FARMER.

February 25, 1895.

**A Chance for Lovely Highland Homes.**

Ten 20-acre tracts, close to Reno, for sale at \$30 per acre. Also blocks or lots in the new University Addition at the head of Virginia street—bargains. Now is a good time to improve the opportunity. See C. O. Downing at the Water Company's office. feb23ml

Dan Le Barron, better known as "Mormon Dan," resided on a ranch in Humboldt county with his wife and an adopted daughter. His wife a week ago procured a divorce on the ground of extreme cruelty. Le Barron started for his ranch with the girl. The officers followed him and arrested him for abduction. He then married the girl by contract and both started for home rejoicing.

**MARRIAGE.**

SEVENTEENTH SESSION.

Thirty-Eighth Day's Proceedings.

## A Natural Food.

Conditions of the system arise when ordinary foods cease to build flesh—there is urgent need of arresting waste—assistance must come quickly, from natural food source.

## Scott's Emulsion

is a condensation of the life of all foods—it is cod-liver oil reinforced, made easy of digestion, and almost as palatable as milk.

Prepared by Scott &amp; Bowne, N. Y. All druggists.

## BREVITIES.

C. H. Stoddard visited the Capital yesterday.

Mrs. Maud Bradley took the train for California last evening.

Mrs. W. E. Griffin was a departure for San Francisco last night.

A splendid line of crockery and glassware at Lange & Schmitt's.

The University Regents will meet to-day in regular monthly meeting.

L. L. Stoney of Hawthorne arrived from California last evening on his way home.

L. Hansen and wife of Utah arrived on the west-bound and registered at the Palace.

Hon. W. E. Deal was a passenger for the Comstock yesterday morning from California.

Go to Fredrick's jewelry store for the latest vocal and instrumental music at 19 cents per copy.

Daniel Harkins, an old and respected citizen of Winnemucca, is very low with dropsy of the heart.

Enough sleeping berths were engaged last night to warrant the railroad in starting the local sleeper out.

Mrs. Huntsman of Battle Mountain arrived from Carson last night and took the east-bound train for home.

John Wilson and F. Menando arrived from California last night on their way to Lone Pine, Inyo county, California.

Read the ad. headed "Free Course by Mail With the Capital City Commercial College." It is a fine offer. Apply for it.

Julius Wilson of San Francisco, F. W. Simpson of Stockton, and E. Cohn of Carson were registered at the Palace last night.

McLean's patent swing rockers at E. C. Sessions & Co.'s new store in the Improvement Building. The only perfect chairs made.

Purke's Tea at night moves the bowels in the morning without pain or discomfort. It is a great health and blood purifier. Sold by S. J. Hodgkinson.

Mrs. C. A. LaGrave arrived from Carson on yesterday's local and visited Mrs. Dr. Bergstein during the afternoon, leaving for Winnemucca on the evening train.

A. G. Springler of San Francisco has taken up a residence in Reno. He is in the employ of Mr. H. Fredrick and is a pleasant gentleman to transact business with.

Mrs. Hinman arrived from Carson on the V. & T. last night and expected to meet her sister, Mrs. Williamson of Battle Mountain, on the arrival of the west-bound train.

Mr. B. Wilson, a dry goods man of Sacramento who has been here for several days endeavoring to aid in the adjustment of Sol Levy's loss by the late fire, left for home last night.

Out of seven men charged with the crime of selling whiskey to Indians and tried before the U. S. court in the last few days, only one was convicted, an old man by the name of Tom Slaven, who made no particular defense.

Purke's Cough Syrup cures Coughs, Cold and Consumption. Mrs. Catherine Black of Le Roy, N. Y., says: "I took one bottle of Purke's Cough Syrup. It acted like magic. Stopped my cough and I am perfectly well now." Sold by S. J. Hodgkinson.

Mr. M. O'Brien, the mill man of San Francisco, arrived from the west yesterday morning and will leave for Lovelock this morning, where he will look after the starting up of the new flour mill which will probably be ready for work about March 6th.

I've a secret in my heart,  
Sweet Marie,  
A tale I would impart,  
Sweet Marie,  
If you would fairer be  
You must always use Purke's Tea  
The improvements you will see,  
Sweet Marie.  
Sold by S. J. Hodgkinson.

Reverend Patrick Manogue, Bishop of the Diocese of Sacramento, died at Sacramento yesterday. Father Manogue, as he was familiarly called, resided in Virginia for many years and was very popular among citizens of all denominations. He was liberal and charitable and respected by all.

CARSON, February 27, 1895.

SENATE.

Met at 11 A. M., Lieutenant-Governor Sadler presiding.

Roll call, prayer by the Chaplain and reading of the Journal as usual.

PRINTER'S UNION PROPOSITION.

S. B. No. 50, introduced by Maute, by request of State Printer McCarthy—Authorizing the use of the International Typographical Union labels on all public printing. Shows that none but union printers are employed. Committee on Printing.

By Flannigan substitute for A. B. No. 60—Fixing the salaries of Washoe county officials. Indefinitely postponed.

At 11:30 Senate took recess till 3 P. M.

AFTERNOON SESSION.

Comins introduced a bill to change the name of the State Insane Asylum to Hospital for Mental Diseases. Judiciary.

GENERAL FILE.

Substitute for A. B. No. 50—To authorize the funding of the indebtedness of Esmeralda county. Returned to the Assembly for engrossment.

By Wise, S. B. No. 19—To prohibit women from visiting, frequenting or remaining in public saloons. Passed unanimously.

By Comins, S. B. No. 50—Amendatory of Act concerning the selection of jurors. States who are exempt from jury duty and who are not. Exempt from jury duty, superannuated, stupid or disabled gentlemen, etc. Passed.

At 4:25 Senate adjourned.

ASSEMBLY.

Assembly met at 11 A. M.

Speaker Allen presiding.

Roll call.

Reading of the Journal as usual.

INTRODUCTION OF BILLS.

By Crisler, A. B. No. 113—Amendatory of Act relative to the incorporation of Carson City. Empowers the Trustees to condemn property for public purposes, etc. Ormsby delegation.

By Leidy, A. B. No. 114—To consolidate certain Esmeralda county offices, fix compensation, etc. Esmeralda delegation.

By Pitt, A. B. No. 115—To provide for the destruction of certain noxious animals. Fixes 5 cents bounty on rabbit scalps. Agriculture.

By Martin, S. B. No. 34—To prohibit certain live stock from running at large in or about towns or cities. Agriculture.

S. B. No. 43—Preservation of wild game. Makes the close season for water fowl from April 1st to September 15th. No reference.

Hogan moved that the Judiciary Committee's recommendation that Assembly bills No. 100, 101, 102 and 104 be referred to Ways and Means Committee be adopted. Carried. The bills are those abolishing deputyships in State offices and reducing salaries of State officers.

S. B. No. 27—Authorizing Douglas Commissioners to issue bonds for road purposes. Passed—20 to 1.

By Coryell, A. B. No. 79—Amendatory of Act defining manner of electing County Commissioners. Makes Commissioners elected by entire people of county instead of by districts.

Discussed at considerable length by Coryell, Denton, Gorman, Allen of Eureka, McNaughton and Pitt, and finally on motion of Denton it was made special order for 2 P. M. to-morrow.

At 12:15 recess taken till 2 P. M.

AFTERNOON SESSION.

WOMAN SUFFRAGE.

S. C. R. No. 9 came up on special order relative to striking out the word "male" wherever it occurs in the Constitution of the State of Nevada.

Russell moved its indefinite postponement. Lost.

Allen of Eureka did not believe in any snap judgment in this important matter. It should be given due consideration.

Denton did not believe in disposing of this question without due consideration. Not for a moment did he doubt the intelligence of women in the matter of voting, but he did fail to find among the true home women of the country many who favored women suffrage.

They preferred to leave voting to their husbands, sons and brothers. He was willing to submit the proposition to the voters at the next general election. The voice of the people is the word of God.

The ayes and nays being called resulted:

Ayes—Brookliss, Court, Flannigan, Gorman, McDonald, Newman, Russell, Mr. Speaker—8.

Nays—Allen of Eureka, Beals, Beck, Briggs, Conboie, Constant, Coryell, Crisler, Denton, Francis, Greenwood, Hall, Hogan, Leidy, Murphy, McNaughton, Noel, Pitt, Stanley, Wieland, Wilson—21.

Absent—Hinman.

And so the bill was lost.

Russell moved adjournment. Lost.

By Comins, S. C. R. No. 9, on the same subject, was now brought up, bringing up more discussion which was joined in by Beck, Hogan, Noel, Denton, Mr. Speaker and others.

Beck said the woman suffrage question was not altogether a hobby with him. Scores and hundreds of good women in conversation with him on the subject had expressed their opin-

## ABSOLUTELY PURE

ions squarely against it, preferring that their husbands, sons and brothers should do their voting.

Noel stood as firmly now on the subject as he had at its inception. He believed it to be the duty of this Legislature to submit it to the people. It was not fair that thirty Assemblymen should arrogate to themselves the decision that should be decided by the voters.

Hogan, Mr. Speaker, McDonald and others participated in the discussion, as also did Gorman, the humorist of the Assembly, who made several points which brought forth much laughter from all, including the numerous ladies present.

The roll-call on the passage of this bill was as follows:

Ayes—Allen of Eureka, Beals, Beck, Briggs, Conboie, Coryell, Crisler, Denton, Francis, Greenwood, Hall, Hogan, Leidy, McNaughton, Noel, Pitt, Stanley, Wieland and Wilson—19.

Nays—Brookliss, Constant, Court, Flannigan, Gorman, Murphy, McDonald, Newman, Russell, Mr. Speaker—10. Absent, Hinman. And so this bill passed.

GENERAL FILE.

A. B. No. 5—Trustees of School District No. 10, Wadsworth, empowered to issue bonds for school purposes. Ordered engrossed.

By Russell, A. J. R. No. 16—Foreign intermeddling of goldbug railroads and other capital powers with the politics and government of the State of Nevada. Lost—10 ayes, 18 nays, 2 absent.

By Stanley, A. C. R.—The Mirbach resolution. Ordered engrossed.

By McNaughton, A. B. No. 8—A mendatory of Act to regulate proceedings in the courts of justice of this State.

By Russell, A. B. No. 82—Preference in employment in public works or in public service of honorably discharged Union soldiers, sailors and marines who were in the war of the rebellion. Passed—26 ayes to 4 absent or not voting.

By Leidy, A. B. No. 100—Amendatory of Act to regulate proceedings in courts of justice in this State. Passed unanimously.

By Flannigan, Substitute for A. B. No. 77—Taxation of certain stock running at large upon private property. Judiciary.

At 3:55 Assembly adjourned.

INCIDENTALS.

The Woman Suffrage matinees in the Assembly this afternoon was well attended, fully as many ladies being present as there were gentlemen, including the members of the Senate, who took a brief recess in order to be in there. As the report shows, two bills were considered on the same subject, but the second bill by Senator Comins seemed to have the preference, anyhow it passed by a good strong majority. Submitting the question to the people, the voters, is the true idea and was considered.

The Constitutional Convention bill by Patchen did not pass yesterday in the Senate as amended. The vote was 8 ayes to 7 nays, but a two-thirds vote is required.

The Senate and Assembly Joint Committee on Irrigation met in the Governor's office last evening and organized by electing Senator Andrew Maute chairman of the committee, and Senator Sardis Summerfield, secretary.

"After the ball" came the accruing and resulting troubles. Diamonds were so plenty that they rattled around loose, and to-day one lady advertiser, offering \$25 for the recovery of a cluster of seven diamonds which got jolted off on the floor in the vigor of her schottische. Other ladies stood their losses in that respect without saying anything about it. Charley Blue, the Ethiopian who swept up and put the hall in order again, is rich now.

Even Sam Davis waxes gently profane over an item in his elaborately detailed description of the ball dresses, wherein he mentions a lady as being attired in a "black shirt," instead of skirt. But that is simply a judgment on any reporter who will deliberately Jenkinsize such an affair. A. D.

Worth Attention.

Considering the difficulties of arriving at a settlement with the insurance companies that Sol Levy has experienced in the last few days, people should profit thereby and look at their policies and have them written in such a manner that no quibble can be raised. It seems that the simple words "stock and fixtures" or "household furniture" won't do after one is burned out, and to make sure, everything should be mentioned and it does not come amiss to have the value named. If loss occurs it is then very easy to say what was lost and the value of it. There are tricks in all trades, even the fire insurance business.

Acknowledged of the Charge.

C. W. Huntsman and Abe Wise of Battle Mountain, who have been on trial before the U. S. Court on a charge of selling whiskey to Indians, were acquitted yesterday, the jury being out only a few moments. The defendants arrived on the V. & T. last evening on their way home. They claim that the reason of their arrest and prosecution was prejudice and ill feeling on the part of certain persons. They were greatly pleased over the result of the trial.

## GOVERNMENT RAILROADS.

A Simple and Effective Method of Operating Them.

EDITOR JOURNAL:—A railroad is a road bed that consists of an iron or steel rail surface. When the road bed is in order trains can be run cheaply and rapidly and safely on it.

The best method of controlling moving trains is by time tables under the orders of a train dispatcher. That is all there is in railroad transportation, and control.

Those railroads that have been built with the means furnished by the people of the United States can be operated by the people of the United States under control of the Government of the United States. Let the Government keep the road bed in order and control the running of trains by time table and train dispatcher, and charge a toll on transportation to cover that cost. Let any person put on cars and trains and carry persons and property at open competition cost—just as is now done on the canal and river transportation of the United States, everywhere. That would give us competition between cars and trains on Government roads. The Government would control and the people would be open and active, and the cost of transportation of persons and property would be reduced to open competition cost. Competition would be on the Government roads and not between roads. Railroad transportation would thus be cheap and rapid transportation at popular prices, instead of dear transportation and corporation prices.

B. F. LEBTTE.

A Preliminary Meeting Held.

About twenty persons met at Justice Linn's court-room last evening to consider the matter of giving an entertainment. No definite conclusion was arrived at, but a committee of five was appointed to canvass the possibilities offered for a minstrel or dramatic evening, formulate a program and arrange for permanent organization. The meeting then adjourned until Saturday night. There is an abundance of good talent in Reno and should the committee decide to carry out the project of a show something first-class may be expected.

To Whom It May Concern.

UNITED STATES LAND OFFICE,  
CARSON CITY, NEV., Feb. 18, 1895.

Notice is hereby given that on the 28th day of March, 1895, the following township plat will be filed:

Township No. 25, N., Range 30, E., M. D. M.

Parties interested must file their claims within three months from said date to secure their preferred rights. Application for entry of lands in said township will be received March 23, 1895.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25cts per box. For sale by S. J. Hodgkinson.

In Cold Weather

The most effective method of preventing roughness, chapping and breaking of the skin is to use Cocona Balm. A few applications will render the skin soft and smooth and it costs only 25 cents per bottle. It gives satisfaction to all who use it.

Now is the Time.

S. Emrich is selling his capes, jackets and children's cloaks at prices regardless of cost in order to clear his stock. He is also selling blankets, dress goods and other dry and fancy goods at proportionately low figures. Now is the time to get bargains.

At the inaugural ball at Carson the music stand was decorated with a painting representing a pile of silver bricks. Some of the Carson goldbugs, who were not at the ball, are said to have taken exceptions to the display and indignantly denounced it as "offensive partisanship." Those highly sensitive goldmen will soon get angry if a silver dollar is exhibited in their sight.

Catarrh

In its Worst Form

Life Almost a Burden

A Glorious Change Due Solely to Hood's Sarsaparilla.

Mrs. C. King

Geneva, Ohio.

Catarrh is a constitutional disease, and therefore it can only be cured by a constitutional remedy like Hood's Sarsaparilla. Read what it did for Mrs. King, concisely expressed in her own voluntary words:

"C. I. Hood & Co., Lowell, Mass.:

"Gentlemen:—From a grateful heart I write what your grand medicine, Hood's Sarsaparilla, has done for me. Five bottles cured me of catarrh in its worst form. I think it was only a matter of time, when it would have ended in

Bronchial Consumption.

I can scarcely realize wherein a few months ago

life was almost a burden, sick and discouraged,

now I am Well and Happy, gaining flesh

and a new being. And all owing to Hood's Sarsaparilla. I will never be without it. Yours

gratefully. MRS. CLARK KING, Geneva, Ohio.

Hood's Pills cure liver ills, jaundice, biliousness, sick headache and constipation. 25c.

FREE COURSE BY MAIL

WITH THE

CAPITAL CITY

COMMERCIAL COLLEGE

—TO ADVERTISE—

OUR COLLEGE

We will give a thorough course of instructions in Double and Single Entry Book-keeping and Commercial Arithmetic by mail FREE OF CHARGE to a limited number of persons. This course will be completed in forty lessons. No charge for Diplomas.

Our method of instruction by mail is far superior to that of any other school in the West. Hundreds of testimonials of our patrons, testifying to this fact, are on file in our office. The phenomenal success attained in this department prompted us to widely advertise our work, and to make it a special feature of our school.

The Instructions and Exercises

Are conducted by mail practically in the same manner as those in our College Rooms which makes them equal with personal instructions, and lead the student to a full and clear understanding of the Science of accounts.

Our Mail Department

Is under the personal supervision of an able instructor, under whose guidance the highest degree of competency may be attained by correspondence.

We offer the above-named course free to introduce our work in your community. Avail yourself of this offer at once, and show the superiority of our work to your friends. Address,

Capital City Commercial College,

929 Kansas Ave., Topeka, Kan.

**STORIES OF PAPER.**

**HOW WATER MARKS WERE MADE AND WHY THEY CAME INTO USE.**

Clever Use Made of Them by Ireland in His Shakespearean Forgeries—Elaborate Designs Imprinted by the "Dandy" Roller—The Bogus Virgin Mary Letter.

Stories and incidents innumerable are wound up in the art of paper making, and its mechanical processes have afforded to the ingenious story teller many a chance for a thrilling tale.

This is especially true of the system of placing water marks, so called, in various brands or makes of paper.

Perhaps the most interesting true story which has to do with this branch of the industry is that of the famous "Ireland's Confessions."

Ireland had fabricated some Shakespeare manuscripts, which for a long time were accepted as actual. They made such an impression indeed that a number of men, famous at that time for their erudition and for their literary standing, voluntarily prepared a testimonial attesting absolute belief in the authenticity of the manuscripts. To this document these men affixed their signatures and sent the paper broadcast.

The whole of the original edition of the fakes was disposed of in a few hours, and so great was the eagerness for the edition that single copies were disposed of in auction rooms at enormous prices.

Some time after that Ireland himself threw these gentlemen into much sorrow by explaining just how he had had fun with them.

Ireland's story was that the sheet of paper which he used was the outside of several others on which some accounts had been kept during the reign of Charles I. At that time Ireland was wholly unacquainted with the subject of water marks.

"I carefully selected," says he, "two half sheets not having any mark whatever, on which I penned my first confession." A few pages further on he wrote: "Being thus urged forward to the production of more manuscripts, it became necessary that I should possess a sufficient quantity of old paper to enable me to proceed, in consequence of which I applied to a bookseller, who, for the sum of 5 shillings, suffered me to take from all the folio and quarto volumes in his shop the fly leaves which they contained."

"By this means I was amply stored with that commodity, nor did I fear any mention of the circumstances by the bookseller. As I was fully aware, from the variety of water marks which are in existence at the present day, that they must have constantly been altered since the period of Elizabeth, and being for some time wholly unacquainted with the water marks of that age, I very carefully produced my first specimens of the writing on such sheets of old paper as had no mark whatever."

"Having heard it frequently stated that the appearance of such marks on the papers would have greatly tended to establish their validity, I listened to every remark that was made on the subject, and I at length gleaned the intelligence that a jug was the prevalent water mark of the reign of Elizabeth, in consequence of which I inspected all the sheets of old paper then in my possession, and having selected such as had the jug on them I produced the succeeding manuscripts upon these, being careful, however, to mingle with them a certain number of blank leaves that the production on a sudden of so many water marks might not excite suspicion in the breasts of those persons who were most conversant with the manuscripts."

A traveler in Messina was once shown a letter written by the Virgin Mary with her own hand. He remarked that it must indeed be a miracle, since the paper showed by its water mark that it was not made till some centuries after the age of Mary.

It is the greatest mystery to most people how water marks are made. And yet the matter is the simplest thing in the world. In the manufacture of paper the pulp, before it has begun to be dried and after it has been spread on the moving platform, passes under a roller called the "dandy." On this "dandy" is affixed the device which works the water mark.

It is of bent wire, and as the roller presses the paper it presses into it the mark.

In the same manner most elaborate designs and even pictures and intricate representations of whole battle scenes have been done from an engraved plate similar to an electrotype, used in the same manner on the "dandy" roller.

Of course, cheap paper and bank paper is the most important variety distinguished by water marks. In a pair of 45 note molds prepared by the old process there are 8 curved borders, 16 figures, 168 large waves and 240 letters, which had all to be separately secured by the finest wire to the curved surface. There were 1,056 wires and 67,584 twists and the same repetition where the stout wires were introduced to support the under surface.

In ancient times the water marks were used for the same purposes as the old inn signs. The old inns had dolls and beehives, horses and various other forms as signs. For the same reason the paper makers had some distinguishing mark which made their product distinct from that of other makers.

A very famous mark of the sixteenth century was the handmark—a hand topped with a star. The jug or pot mark gave the name to the "pot" paper, while the foolscap mark used on paper of a certain size gave that size its name, which it retains to this day.

The post paper was so called because it bore a mark of a shield with a post horn on it—London Letters.

**Bangor Girls.**

You've heard of the Bangor girls! They are proverbial. Metaphorically speaking, every daughter of Eve in the Queen City wears a bloom of health, a pair of large, speaking orbs and two lovely peachblow cheeks. Whether this is due to the ozone influence of the atmosphere or the unusual richness of the soil, certain it is that Venus and Dianus and Hebes come marching up the street some days in a solid phalanx. There are girls upon girls, and they are all handsome.—Bridford Journal.

FRIDAY, MARCH 1, 1895.

## INTERNATIONAL MONETARY CONFERENCE.

The Governments of France, Germany and England regard with increasing apprehension the constant fluctuations and growing divergence in the relative value of gold and silver and concur in the expression of opinion regarding the serious evils resulting therefrom. They therefore favor an international conference to consider what measures can be taken to mitigate those evils.

The United States Senate, which is too closely allied to the Gold Trust to take the initiative in restoring silver to its old standard, upon being informed of the action of England in the matter resolved to act with an international monetary conference, if such conference is called, and provided that the United States shall be represented at such conference by nine commissioners, three of whom shall be selected by the President, three by the Senate and three by the House of Representatives. A motion by Senator Stewart to instruct the delegates to insist upon the ratio of 16 to 1 was defeated.

England will not commit itself to any ratio nor be bound in any way by the action of the conference. Sir William Harcourt declared in the House of Commons that the financial prosperity of England is bound up entirely with the maintenance of the gold standard. If a conference is held England will send representatives, but they will be gold standard men and will not commit themselves to bimetalism nor be bound by the decision of the majority, if that decision favors bimetalism.

It seems as if this international monetary conference was arranged to divide the people of the United States in the Presidential election next year. Similar tactics were practiced four years ago to influence the election. We were told by the gold press during the campaign that the Brussels Conference would hold another session and agree upon a ratio favorable to silver. After the election nothing more was heard of the conference. Now the people are to be humbugged again with the delusive idea, that a conference of European nations, some of which admit that their financial prosperity depends upon the maintenance of the gold standard, and none of which produce silver, will agree to a proposition to remonetize silver.

Senator Stewart declares that sending delegates to such a conference, without instructions to insist on the historic ratio between gold and silver, is a "trade with our oppressors." Why does not the United States, the greatest silver producing nation in the world, open the mints to the unlimited coinage of silver at the old ratio and set an example for the countries of Europe to follow? The Government, with millions of ounces of silver in its vaults and mints lying idle that could be set to work coining that silver into legal tender money, is issuing interest-bearing bonds for gold to meet obligations which could be legally canceled with silver dollars and the people who have to pay the interest sanction the imposition at the ballot box because place hunting politicians, both Republicans and Democrats, advise them to do so and object to unity of action on their part against the outrage.

## THE SHEEP LICENSE BILL.

A bill is now before the Legislature to provide for licensing sheep raising in the several counties of the State at the rate of \$50 per thousand sheep per year. The Republican papers of the State, which are patronized by sheep owners, say nothing about the bill, from which silence it is natural to infer that it receives their approval. However that may be, as one of justice impels the JOURNAL to say that it has objectionable features. While every reasonable person admits that the owners of migratory flocks of sheep, from California on the west and Utah on the east, which are pastured in Nevada and taxed elsewhere, should be made to help support the State and county governments in Nevada, reasonable people also concede that there are resident sheep owners who do pay taxes in Nevada and should not be placed in the same category with non-residents. The bill, however, makes no distinction between the two classes of owners. That seems to be unjust to the resident owners, who, notwithstanding they may own an acre of land for every sheep in their flocks, have to procure a license to raise sheep on their own land or on the public domain.

Four-fifths, or perhaps a greater proportion of the area of Nevada, is owned by the general government. It is public land to the beneficial use of which all citizens are equally entitled. No one is permitted to fence it or have the exclusive right to its use. There is no law prohibiting live stock of all kinds from running at large upon it. Cattle, horses, sheep and goats may be pastured on it without violating any law of the United States. A person owning a section of land adjoining government land has the yet undisputed right to turn his cattle or sheep, which ever he may be engaged in raising, to graze upon the public section and State legislation compelling a person under penalty to procure a license to pasture sheep on his own land or on the public domain would doubtless be nullified by the Courts.

However, the bill now before the Legislature, and a copy of which appears in the JOURNAL, should be modified. Discretion should be given the Board of Commissioners of each county to determine the amount of license

sheep owners of each class prescribed by the bill. Why should a resident who may own thousands of acres of land in the State be compelled to pay as high license for raising sheep as a non-resident of the same class who does not pay a dollar tax in the State? No good reason can be given for such injustice and therefore the Commissioners, or some other local board, should be authorized to determine the amount of license each person should pay in a county.

## FOR FISH COMMISSIONER.

Very many citizens express the hope that B. F. Bobo will be appointed State Fish Commissioner by Governor Jones. Mr. Bobo is a devoted disciple of Isaac Walton. He is familiar with every phase of the fish question and has clear ideas regarding the protection of the flumy tribe in the waters of the State. Should he be appointed and accept the position he would faithfully and efficiently perform the duties of the office, suggest necessary and beneficial changes in the fish laws and see that the acts relating to fish were enforced.

## THE PROPOSED SHEEP LAW.

A Bill to Compel Sheep Owners to Pay a License.

Following is the text of Assembly bill No. 90, to provide for a license upon the business of owning, raising, grazing, herding or pasturing sheep in the several counties of Nevada:

SECTION 1. Every person now engaged in, or who may hereafter engage in the business of owning, raising, grazing, herding or pasturing sheep, as either owner, lessee or manager, of such sheep, in any county in the State of Nevada, must annually procure a license therefor, from the Sheriff as Collector of Licenses, of each of such counties and make payment therefor, as follows, in advance, for each band, flock or bunch of sheep:

First:—Such person owning or having in his possession or under his control, as lessee or manager, five thousand sheep or more, shall be deemed of the first class and must pay the sum of two hundred and fifty dollars per annum for the first five thousand sheep, and the further sum of fifty dollars per annum for every additional one thousand sheep or fraction thereof.

Second:—Such persons owning or having in his possession or under his control, as lessee or manager, four thousand sheep and less than five thousand, shall be deemed of the second class, and must pay the sum of two hundred and fifty dollars per annum.

Third:—Such persons owning or having in his possession or under his control, as lessee or manager, three thousand sheep and less than four thousand, shall be deemed of the third class, and must pay the sum of one hundred and fifty dollars per annum.

Fourth:—Such persons owning or having in his possession or under his control, as lessee or manager, two thousand sheep and less than three thousand, shall be deemed of the fourth class and must pay the sum of one hundred dollars per annum.

Fifth:—Such persons owning or having in his possession or under his control, as lessee or manager, fifteen hundred sheep and less than two thousand shall be deemed of the fifth class, and must pay the sum of seventy-five dollars per annum.

Sixth:—Such persons owning or having in his possession or under his control, as lessee or manager, one thousand sheep, and less than fifteen hundred shall be deemed of the sixth class, and must pay the sum of fifty dollars per annum.

Seventh:—Such persons owning or having in his possession or under his control, as lessee or manager, any number of sheep, less than one thousand, shall be deemed of the seventh class, and must pay the sum of twenty-five dollars per annum; provided, that nothing in this Act contained, shall be construed as to require the procurement of more than one license for the same sheep, in the same county, for the same year.

SEC. 2. Every person who shall engage in the business of raising, grazing, herding or pasturing of any sheep, as either owner, lessee or manager thereof with any county of the State of Nevada, without first having procured a license therefor, as prescribed by this Act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine, for each offense, of not less than fifty dollars nor more than two hundred and fifty dollars, or imprisonment in the county jail for a period of not less than twenty-five days or more than ninety days.

SEC. 3. The Sheriff, as Collector of Licenses, of each county of the State of Nevada, shall make diligent inquiry and examination, concerning all persons in his county, liable to the procurement of license as provided in this Act, and he is hereby empowered, and it shall be his duty to require each such person to make a statement, under oath or affirmation, of the number of sheep then or about to be owned by them, or then or about to be in his possession or under his control, as lessee or manager thereof, within such county. Thereupon such person shall procure such license from such sheriff, as collector of license, according to the class to which he shall be shown, by the number of such sheep, to belong; and in all cases, wherein an under estimate of the number of sheep is made, by the person procuring such license, the person making such under estimate, shall be required to pay a double license for the next year. Such license, when procured, shall authorize the party procuring the same, within the county wherein the license is procured, but in

no other county, to transact business as specified in such license; and if any such person, required by the provisions of this Act, to procure a license, shall fail, neglect or refuse to procure such license, in the manner provided for in this Act, or shall engage in, or attempt to engage in any of the business mentioned in this Act, without procuring such license therefor, the Sheriff, as a collector of licenses, shall direct the commencement of, and the District or Prosecuting Attorney of the county shall immediately commence an action in the name of the State of Nevada, as plaintiff, against such person for the recovery of the license money and all damages, according to the class in this Act specified, to which such person shall be proven to belong; and in such action, either the Sheriff as collector of licenses or the District or Prosecuting Attorney of the county where such action is commenced, may make the necessary affidavit and cause the undertaking to be furnished, necessary to the procurement of the issuance of the writ of attachment; and a writ of attachment shall thereupon issue, and may be levied upon the sheep of such owner, lessee or manager, within such county; and in case of recovery by the plaintiff in such action, judgment shall be entered for the amount found due for such license, and \$25, liquidated damages, for non-procurement of license and all costs of such action, of which damages, \$10, shall be paid to the Sheriff as collector of licenses and \$15 thereof shall be paid to the District or Prosecuting Attorney for their services in the action. Upon the trial of any criminal action, provided for in this Act, the defendant shall be deemed to have not procured the proper license unless he produces it, or proves that he did procure it; but he may plead in bar of a criminal action, a recovery and payment, in a civil action, against him, of a judgment of proper license money, damages and costs.

SEC. 4. The County Auditors of the several counties of this State, shall prepare, have printed and deliver to the Sheriff, as license collector, of the several counties, suitable blank licenses for the proper enforcement of the provisions of this Act, with blank receipts for the same when sold.

SEC. 5. The Sheriff as collector of licenses, shall demand and collect from the person procuring such license, a fee of two dollars for each license sold by him, in addition to the amount paid for such license.

SEC. 6. All monies collected for licenses, under the provisions of this Act, shall be paid to the County Treasurer of the county wherein such licenses are collected, and shall by him be placed to the credit of the general fund of such county.

SEC. 7. This Act shall take effect and be in force on and after thirty days from its approval.

## BOARD OF REGENTS.

The Regular Monthly Meeting Held Yesterday.

The monthly meeting of the Board of Regents was held yesterday, all the members being present.

The President's report concerning the matters presented to the Legislature was submitted, also giving 265 students as the enrollment for the term.

The proposition of J. N. Evans concerning certain land west of the University campus was submitted, and for the time being action was postponed.

The statement of balances in the several funds for the month ending January 31, 1895, showed the following:

|   |            |
|---|------------|
| Agriculture and Mechanical College          | \$4,727 58 |
| Morrill Fund                                | 12 47      |
| Agriculture and Mechanical College          | 12 47      |
| Library Fund                                | 54,760 42  |
| Experiment Station Hatch Fund               | \$2,555 22 |
| Experiment Station Farm Sales Fund          | 71 24      |
| Experiment Station Building and Repair Fund | 511 25     |

The regular monthly bills were allowed from the Contingent University (State) Fund, \$1,550 90; from the Government Fund, \$1,519 75.

An executive session of the Board was held in which questions regarding the general administrative features of the institution were discussed, also matters concerning the proposed new buildings.

President Stubbs was authorized to look into the arrangement and furnishings of a modern dormitory and submit a report covering plans and details for the consideration of the Board at its next regular monthly meeting. Adjourned.

## District Court.

Mrs. Nancy E. Fry was granted a decree of divorce from C. D. Fry yesterday on the grounds of desertion and failure to provide. She was also awarded the custody of the minor child.

The Novacovich case was postponed until Saturday.

The last will and testament of Mehalla Morton, deceased, was admitted to probate and letters testamentary thereon issued to W. W. Morton. The property is estimated at \$16,000.

A Chance for Lovely Highland Homes.

Ten 20-acre tracts, close to Reno, for sale at \$90 per acre. Also blocks or lots in the new University Addition at the head of Virginia street—bargains. Now is a good time to improve the opportunity. See C. C. Powning at the Water Company's office. feb23ml

## Special Notice.

Having secured the services of a skilled mechanic, I beg to call special attention to my watch repairing and diamond setting department. First-class work, reasonable charges and no delay.

H. FREDRICK,  
Jeweler.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## The Pioneer Druggist.

The new advertisement of Wm. Pinniger, the pioneer druggist of Reno, appears in another column. Mr. Pinniger always keeps a full stock of the choicest goods in his line, including the best of drugs, toilet articles and drug novelties. His farm, garden and flower seeds are especially selected and give the best of satisfaction. His prices are reasonable and in keeping with the hard times, and satisfaction is guaranteed.

## To Whom It May Concern.

UNITED STATES LAND OFFICE,  
CARSON CITY, Nev., Feb. 18, 1895.

Notice is hereby given that on the 28th day of March, 1895, the following township plat will be filed:

Township No. 23, N., Range 30, E., M. D. M.

Parties interested must file their claims within three months from said date to secure their preferred rights. Application for entry of lands in said township will be received March 28, 1895.

O. H. GALLUP,  
Register.

## All Free.

Those who have used Dr. King's New Discovery know its value, and those who have not, have now the opportunity to try it free. Call on the advertised Druggist and get a Trial Bottle, Free. Send your name to H. E. Buckling & Co., Chicago and get a box of Dr. King's New Life Pills Free, as well as a copy of Guide to Health and Household Instructor, Free. All of which is guaranteed to do you good and cost you nothing at S. J. Hodgkinson's Druggist.

## Viati.

Our sales are increasing every week. I cordially invite every body in Reno to call and talk with me regarding this great cure.

MRS. R. E. HUNTER.

## Viati Co.

## NEW TO-DAY.

The dwelling house of Mrs. R. C. Pierce of Virginia City was almost swallowed up a day or two ago. A chasm opened under the building thirty or forty feet deep and twenty feet long. The house is located on the Chollar ground, and the company is having the hole filled up.

Parks' Sure Cure is a positive specific in all diseases of the Liver and Kidneys. By removing the uric acid in the blood it cures Rheumatism. S. B. Basford of Carthage, S. Dak., says: "I believe Parks' Sure Cure excels all other medicines for Rheumatism and Urinary disorders." Sold by S. J. Hodgkinson.

The American Beauty owes her prestige more to a clear complexion than to any other attribute. A cup of Parks' Tea will enable anyone to possess this. It clears the skin and removes pimples and that sallow, muddy look, Parks' Tea is used by thousands of ladies for the complexion. Without being a cathartic it cures constipation. Sold by S. J. Hodgkinson.

New Silk and Black Goods.

The Palace Dry Goods and Carpet House has just received a full line of new and beautiful fancy silk suitable for blouse waists, also a full line of new fancy black dress goods. Call and see them.

The Modern Way

Commends itself to the well informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of

Figs.

## SEVENTEENTH SESSION.

## Thirty-ninth Day's Proceedings.

CARSON, February 23, 1895.

## SENATE.

Met at 11 A. M., Lieutenant Governor Sudler presiding.

Roll call, prayer by the Chaplain and reading of the Journal as usual.

Senator Maute made the following report:

Mr. President: I have the honor to inform the Senate that the Senate and Assembly Joint Committee on Irrigation is now fully organized with Andrew Maute as Chairman and Sardis Summerfield as Secretary. Also that the Senate and Assembly Joint Committee on Elections is now organized with Andrew Maute as Chairman and P. F. Flannigan as Secretary.

## GENERAL FILE.

By Noel, A. B. No. 71—Amendatory of Act providing for State revenue. Storey county taxation not to exceed \$5 on the \$100. Passed—12 yeas, 3 nays.

By Martin, Assembly amendment to S. B. No. 27—Douglas county road fund. Amendment adopted and bill ordered re-engrossed.

By Martin, S. B. No. 54—Amendatory of Act to regulate proceedings in civil cases. Judiciary.

A. B. No. 4—Re-referred to Joint Committee on Elections.

By Wilson, S. B. No. 30—Amendatory of Act for the preservation of the fish in the waters of the State.

A long and lively discussion followed on the proposition that ranchers, citizens or residents of fishing localities should be allowed to catch fish with hook and line only, for their own table use and none other. Summerfield strongly favored and advocated the proposition, with Mills and Comins against him, their argument being that the fish industry or supply which had taken eighteen years and \$25,000 to establish would thus be annihilated in a couple of years.

The vote on final passage stood 7 to 7, and was decided by the President voting in the affirmative, thus passing the bill.

Comins moved that the title of the bill be now amended to read An Act to destroy the fish industry of the State of Nevada.

Summerfield moved to lay the motion on the table. Carried by vote of the President.

At 12:20 Senate took recess till 2 P. M.

## AFTERNOON SESSION.

S. B. No. 43—Directing certain questions to the electors of Reno. Passed.

S. C. R. No. 13—Relative to canvassing the vote on calling a Constitutional Convention. Temporarily laid on the table.

S. C. R. No. 11—Relative to calling a Constitutional Convention. Temporarily tabled.

A. B. No. 80—Amendatory of Act concerning attorneys and counsellors-at-law. Unanimously lost.

S. B. No. 40—Amendatory of Act regulating manner of drawing juries. Passed.

S. B. No. 41—Amendatory of Act relative to public roads. Ordered engrossed.

A. B. No. 78—Providing for the disposal of revenue from gaming licenses, penal fines, toll roads and bridges. Goes to the general fund of the counties. Lost unanimously.

A. B. No. 34—Amendatory of Act relative to public highways. Passed.

S. B. No. 31—Amendatory of Act limiting the powers of certain county officers. Passed.

Substitute for S. B. No. 6—Concerning District Courts and Judges thereof. Passed.

S. B. 19—Wise's bill—Prohibiting women from visiting, frequenting or remaining in public saloons, which passed the Senate, returned from the Assembly for engrossment. Considered engrossed and again passed.

S. B. No. 20—To extend aid to the State Agricultural Society. Considered in Committee of the Whole and in regular session report of committee adopted referring it to Ways and Means Committee.

S. B. No. 51—To prevent malicious mischief in churches. Ordered engrossed.

At 4:20 Senate adjourned.

## ASSEMBLY.

Met at 11 A. M., Speaker Allen presiding.

Roll call, prayer by the Chaplain, and reading of the Journal as usual.

## INTRODUCTION OF BILLS.

By Allen of Eureka, A. B. No. 116—To provide for the painting in oil colors, at a cost not to exceed \$500, the portrait of ex-Governor Colecord. Ways and Means.

By Gorman, A. B. No. 117, by request—Appropriating \$100 for the relief of C. F. Murphy, for expenses in contesting for his rightful seat in the Assembly. Claims.

By Denton, A. B. 118—License of \$10 per month for drummers, push peddlers and auctioneers, and \$25 per month for wagon peddlers. Excepts vendors of agricultural products of Nevada and U. S. Territories. Judiciary.

By Wise, S. B. No. 10—To prohibit women from public saloons. Returned to the Senate for engrossment.

Substitute for A. B. No. 16—Preser-

vation of wild game. Agriculture.

By Comins, S. B. No. 30—Concerning juries. Judiciary.

## GENERAL FILE.

Substitute for S. B. No. 25—To refund to subscribers to the Midwinter Fair fund and pay outstanding indebtedness of the same.

Considered in Committee of the Whole, Allen of Eureka in the chair, passage reconsidered, report of Committee adopted in regular session and bill passed; 20 yeas, Hogan nays.

By Gorman, substitute for A. B. No. 39—For the maintenance and supervision of the public schools. Passed unanimously.

By Francis—That Hon. H. H. Hogan be allowed the use of the Assembly chamber to-morrow evening for the purpose of delivering a lecture upon finance and other matters of public interest.

Dr. Hogan stated that he would say nothing except what he had said two years ago, and while he claimed no gift of oratory he had as yet found no person who could refute the arguments which he proposed to submit in his lecture.

The resolution of Francis was adopted.

At 12:15 the Assembly took a recess till 2 P. M.

## AFTERNOON SESSION.

GENERAL FILE.

By Coryell, A. B. No. 79—Amendatory of Act defining the manner of electing County Commissioners; makes commissioners elected by entire people of the county instead of by districts. Come up on special order. Discussed at length by Gorman, Russell, McNaughton, Coryell, Beck, Allen of Churchill, McDonald, Gorman and others. The roll call on final passage of the bill resulted, 24 yeas, 5 nays, absent, 1.

By Maute, S. B. No. 25—Maintenance and supervision of public schools.

Beck opposed the bill as being in his opinion in the favor and interest of one man in Enreka county. It should be for the whole school interest of the State. He hoped the bill would be voted down.

Conboie considered it as somewhat of a one-sided mercenary affair getting in somebody to be benefited in the purchase of school supplies, etc.

Gorman and Denton spoke in favor of the bill.

Allen of Eureka, as being a half interested representative of Eureka did not believe in special legislation for the benefit of Mr. Smith, who has school supplies to sell and who wants from two to five per cent. profit, when such supplies can be purchased of somebody else, or from some where else at reasonable rates.

Francis said this bill applies as well to the school interests of Winnemucca, and he was instructed to work and vote against it, the people there not considering it a good bill, he would therefore oppose it.

Flannigan thought it a very bad precedent to establish, allowing school trustees to interestedly dabble in such matters and he would oppose the bill.

Beck opposed it on the ground of special legislation in favor of Eureka, when if there was proper merit therein, it should be made applicable generally to all school districts. Our State constitution is pronounced against special legislation.

Allen of Churchill did not think it special legislation and that a school trustee had a perfect right to sell a purchaser supplies if he saw fit, at a reasonable profit.

The roll call on final passage of the bill resulted: Ayes 22, noes 8. Bill declared passed.

By Gorman, A. B. No. 89—Amendatory of Act for the maintenance and supervision of public schools. After considerable discussion the bill was lost; yeas 9, nays 21.

By McNaughton, A. B. No. 107—Free public library. Ordered engrossed.

By Wieland, A. B. No. 110—To prevent the spread of contagious diseases. Ordered engrossed.

By Wieland, A. B. No. 111—Amendatory of Act prohibiting the sale of diseased animals, or meats, etc. Ordered engrossed.

By Hogan, A. C. R. No. 17—New Legislative apportionment. Laid on the table.

By Flannigan, A. C. R. No. 18—Amendatory of State Constitution, making buying or selling votes a penal offense. Hogan advocated the idea that it should be punishable by death.

Noel of the Judiciary Committee, being asked why that committee had reported adversely upon this resolution, replied that it was because the subject matter and object of the bill was absolutely covered by existing laws.

A large amount of nonsensical filibustering was indulged in about this time—motions to adjourn, roll calls, amendments and all that sort of thing and finally the motion to indefinitely postpone the resolution prevailed and was adopted.

By Pitt, A. B. No. 94—To provide revenue for the State. Passed.

At 4:50 Assembly adjourned.

## A MEAN PIECE OF BUSINESS.

The five cases of selling whisky to Indians which have been on trial in the United States Circuit Court before Hawley for about a week came to a con-

clusion yesterday. Four ended in acquittal, one poor, miserable, old Mick from Battle Mountain being found guilty and sentenced to thirty days in the Storey county jail, a contract having been made by the United States Marshal to that effect for such condemned culprits.

But these cases cost the Government lots of money. Seventy-two jurors were summoned from various parts of the State at \$2 per day each and mileage, 5 cents per mile, about twenty witnesses at \$1.50 per day and 5 cents mileage, and then there was the fees of the United States Marshal in making the arrests, the attorneys' fees, the transportation and care of the prisoners, etc., the whole involving some hundreds of dollars—and all to nearly or quite no purpose. Two of the parties from Battle Mountain were respectable business men, and everything went to show that a job was put up by certain parties there to get them into the scrape and have them arrested in order to get a few hundred dollars out of it.

But the game did not succeed and the mercenary gutter snipes had to go back empty handed. Even Judge Hawley in his charge to the jury mentioned the appearance of jobbery in the matter and said he would try and inquire further into it for future reference.

It was somewhat of a picnic to the half-dozen bucks and squaws—\$1.50 a day, free ride here and back and a chance to see all the sights about the State Capitol, the Legislature, etc. And they did enjoy it. One squaw, "Shoshone Annie," from Battle Mountain, testified that she liked whisky and kept drunk most of the time when she could, how she procured whisky, how she paid for it, and all that sort of thing.

But the greatest hardship was in arresting respectable business men, taking them away from their business and families, and putting them to heavy expense, serious trouble and damage. There should be some way of making the venal investigators of the outrage suffer for it.

A. D.

## Grand Jury Report.

To the Hon. A. E. Cheney, Judge of the Second Judicial District Court, in and for Washoe County, Nevada:—We, your Grand Jury, beg leave to report that we have found a true bill against Jesse Jackson, D. LaGrande and J. Allison, for the crime of grand larceny.

We have ignored the charges against Thomas Worden of assault with intent to kill.

We have ignored the charge of grand larceny against Jessie Moe.

We find that the engine and hose house now used by the town of Reno is on leased ground and liable, after thirty days' notice, to be used for other purposes. We therefore recommend the purchase of a suitable lot by the town and the erection thereon of a suitable building for an engine and hose house. All of which is respectfully submitted. I. B. MARSHALL, Foreman.

J. F. EMMITT, Secretary.

## Prompt Settlement.

Mr. H. S. Bettinger, representing the Pacific Mutual Life and Accident Insurance Company, arrived in Reno yesterday on his way to Wadsworth, where he goes to settle the claim of Mrs. Vin LaForge, her husband who was killed in the late train wreck at White Plains having held a policy in the above company for \$2,000. Mr. Bettinger will simply look into the particulars of the accident that caused the death of Mr. LaForge, and present the widow with a check for the full amount. This prompt settlement speaks well for the company, as the accident happened less than two months ago, and there has been no quibbling nor has the widow been harassed and tormented by skin-fint adjusters that are compelled to eke out an existence on the commission they make on the misfortunes and losses of other people.

## A Double Runaway.

Steve Ede and Angelo Ferretti had a double runaway on Wednesday evening while driving home. One driver's team began running and frightened the other's team and both started out at a lively rate. Both men were thrown from their wagons, Mr. Ede being seriously hurt and Mr. Ferretti escaping with a sprained ankle.

Awarded Highest Honors—World's Fair
